

HydroShield

Product Overview

- Initial filtration efficiency at Most Penetrating Particle Size of >95 %
- Prevents salt and water ingestion
- Long filter life
- Low differential pressure loss
- Compatible with GDx systems

Specification

EN1822	E11
Filter Length (mm)	660
Media Type	Hydrophobic Microfiber
End Caps Material	Galvanised Steel
In / Outside liner	Galvanised Steel
Gasket Material	EPDM
Sealant	Polyurethane
Burst Strength	> 6,250 Pa
Max Operating Temperature	-40°C to + 65°C
Humidity Range	0 to 100% Relative Humidity

Product Information

Part Number	Type	Outer Diameter mm	Rated Airflow (CMH)	Rated Initial Resistance (Pa)
Conical / Cylindrical Set				
CU003	Conical	Outer Ø 1: 444, Outer Ø 2: 324	2,550	195
	Cylindrical	324
